Healthy Smoothie Grant Opportunity Coming to the HS!

Supporting the Whole Child: Introducing Our Building Healthy Communities Program

At our school, we believe that every student's well-being is essential to their success. That's why we're excited to announce that we've been awarded the Building Healthy Communities: Step Up for School Wellness program! This program helps us create a healthier and more supportive environment for our students and staff to thrive.

What This Means for Our School

This year, we've been awarded a Healthy Smoothies Grant which will help us provide a new, healthy, and unique option in our cafeteria. Our School Health Team will work together to implement this program and make sure it meets the needs of our school community.

Stay Tuned!

We'll be sharing regular updates on our progress and welcoming students, families, and staff feedback. We're committed to making our school a healthier and happier place for everyone! We're excited to take this important step towards supporting the whole child and promoting a culture of wellness in our school. Thank you for your continued support!
